OBJECTIVE

Detail-oriented and self-driven Front-End Developer seeking an entry-level or junior role where I can contribute clean, responsive UI, accessibility-focused layouts, and well-structured code. Skilled in HTML, CSS, and modern frontend structure, with a growing portfolio of real projects built from scratch.

TECHNICAL SKILLS

Languages & Tools: HTML5, CSS3, Responsive Web Design, Git & GitHub, Markdown, Beginner JavaScript (in progress).

Strengths: Clean, readable code; strong problem-solving; quick learner; attention to detail; ability to independently build multi-page sites.

PROJECTS

OfficialSharonCrady.com – Personal Brand Ecosystem

- Multi-section HTML/CSS site with aviation, writing, and portfolio areas.
- Responsive layouts, donor sidebar, and multi-page navigation.

SharonCodes Developer Portfolio

- Developer-focused portfolio hosted on GitHub Pages.
- Includes project listings and a Resume & CV Hub.

Resume & CV Hub (Web + PDF)

- Centralized location for multiple resume versions with PDF downloads.
